Create a Link to a website or URL (Mobile)

A Guide for Students and Faculty

Who is this for? This guide is for students and faculty who want to create a text link to a website/URL in their ePortfolio on a mobile device.

Step 1: In a Rich text module, tap the edit icon. Type in and then highlight the text in which you want to create a link to a website or URL, then select the "Link" icon. (*See Images 1, 2 and 3*)

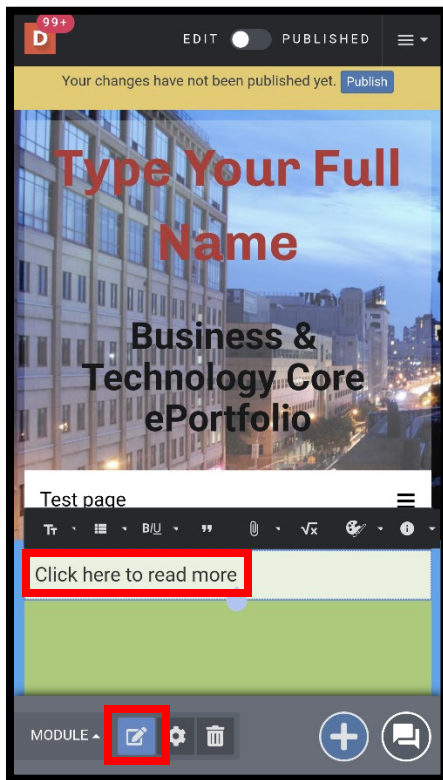

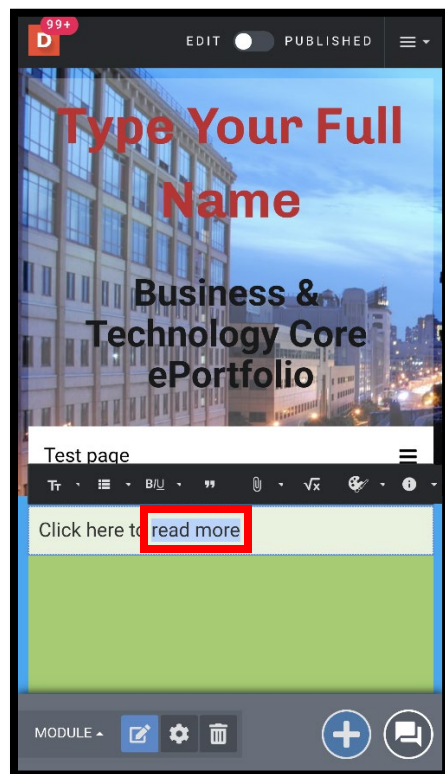

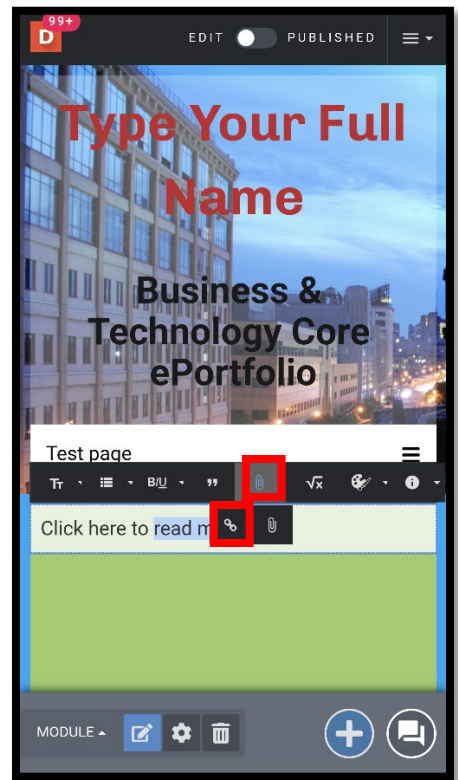

| Image 1 | Image 2 | Image 3 |

Step 2: Next, in the text field, paste the URL to the website you want the text to link to. Choose whether you want the link to open in a new window or not and then click the check mark. The text will now be a link. Click the link to test that it works. (*See Image 4, 5 and 6*)
